Dining Table collection

A GOOD TABLE CAN LAST DECADES.

IT CAN EVEN BE PASSED DOWN FROM GENERATION TO GENERATION

Because the dining room is the hub of home entertaining, finding the right dining table accommodate family and friends is a worthy investment. Besides being above all practical, a dining table also sets the overall mood of the space: a lightly stained wooden set for four exudes an informal, casual feel, while a formal table for 10 evokes sophitication and formality. As you get ready to purchase a new one, consider what works for you and your family.

Dining Chair collection

DEPENDING ON YOUR NEEDS,

A DINING CHAIR CAN SERVE MANY DIFFERENT PURPOSES.

If you have a formal dining room, your dining chair is often only used for special occasions. If it's part of a kitchen dining set, it probably sees a lot of action — everything from game night to daily family meals. The type of dining chair you pick out is often dictated by those preferences and where style might matter more in a formal setting, comfort is key with casual, everyday events.

Headboard & bed collection

ONE OF THE MOST IMPORTANT PIECES OF FURNITURE YOU'LL EVER PURCHASE. A BED CAN OFTEN MAKE OR BREAK GOOD SLEEPING PATTERNS.

Of course the mattress is key, but catching some z's will be challenging if your headboard shakes, rattles and rolls every time you make the tiniest move. While it wards off sleepless nights, it's also one of the main design features in your bedroom. While sleigh beds and four-poster beds are classic romantic, platform beds and tufted headboard are trendy and contemporary. Your bed makes a statement, so think about what you're going for and make sure your choice reflects your style.

BED FRAME

A classic touch made a headboard and bed frame stand out from the others. Pick our other selections of headboards and bed frames for your maximum comfort and everlasting style.

Dresser & nightstand collection

FOR MANY OF US, OUR DRESSERS, ARMOIRES AND NIGHTSTANDS ARE KEY PIECES OF BEDROOM FURNITURE.

Without them, we would be unable to store our never ending clothes collection. If your storage needs are minimal, one dresser might be enough, while other people might require two or three. Although your bedroom furniture is need based, it's also determined by the space in your room.

DRESSER
cabinet

A dresser is more than just a place to store your socks and sweaters. It's part of your overall decorating scheme and should reflect your style and taste.
A dresser works especially on a long, plain wall and allows you to hang a mirror above it. Pick a dresser that is functional, attractive and a good fit for your space.

How to clean & care

your precious furniture

SOFAS
Spot clean with a damp cloth or sponge; blot to remove excess water; air dry. Blot spills immediately with a clean, undyed towel or sponge. To prevent fading, keep fabric out of direct sunlight. Vacuum crevices. For slipcovered sofas, dry-clean for best result.

HARD FURNISHINGS
Wipe with a soft, dry cloth. Avoid the use of chemicals and household cleaners as they might damage the finish.

SLIPCOVERED DINING CHAIRS
Spot clean with a damp cloth or sponge; blot to remove excess water, air dry. Blot spills immediately with a clean undyed towel or sponge. To prevent fading, keep fabric out of direct sunlight. Vacuum crevices. For best result, dry-cleaning is recommended.

FABRIC HEADBOARDS
To protect the fabric, spot clean occasionally with a damp white cloth. A soft brush or the brush attachment of a vacuum cleaner can also be used to clean dust.

PILLOWS
Pillows will compress overtime. Fluff and rotate your accent pillows monthly for even wear.

RUGS
Vacuum regularly to prevent dust and crumbs from settling into roots of fibers. Avoid direct and continuous exposure to sunlight. Use carpet protectors under the legs of heavy furniture to avoid flattening piles. Remove spills immediately; if liquid, blot with clean, undyed cloth by pressing firmly around the spill to absorb as much as possible. For hard-to-remove stains, professional carpet cleaning is recommended.

FABRIC
Dust and vacuum your fabric regularly to help keep fabric looking new. Fabric will naturally fade overtime, avoid direct sunlight and heat. Professional dry clean is recommended for upholstery cleaning. Dab spills immediately with soft white cloth dampened with distilled water. Do not use tap water, detergents, polishes, preserves or soaps to clean.

LEATHER
Spot clean. Dust and vacuum often, using a crevice tool in seams. Avoid direct exposure to sunlight. Keep leather furniture at least 12″ away from heat sources. This will help prevent the leather from drying and possibly crackling. Avoid excess rubbing. Blot any remaining soap residue with a clean cloth dampened only with clear distilled water. Blot until dry, repeating as necessary. Contact a professional leather cleaning service for more difficult stains.
Never use harsh cleaners, chemicals or saddle soap. Before using any type of cleaner, always test-clean on a hidden area.
